

RSS Feed

Posted by Will Steele - 30 Dec 2009 - 18:46

Hi Robert. I tend to subscribe to forums and sites and wondered if you have a feed for the forums? Once things get going I'd like to be able to follow if I could.

Re:RSS Feed

Hey Will,

thanks for this input. In fact there is a simple RSS feed already. See the little reddish icon in the lower right corner?

Its link is: http://windbg.info/forum/fb_rss.html?no_html=1

But I do agree that the icon is way to hidden so I put the following note onto my TODO list: "make a main-menu section with all available feeds". I guess this should do it and should be implemented within a week or so.

Thanks again & Warm Regards, RK

I see it now. Maybe adding it to the set of icons on the top left (new thread, reply, un/subscribe, favorite) or right side (above Forum Tools) would have gotten my attention. It was hiding from me. Thanks again.
